COLOR TOOLS

Prospray offers premium solutions and outstanding color, all within a fully-integrated system.

Practically every OEM color formula is available in Color Focus 2.0 software. This intuitive color information system is a must-have for the professional repair and refinishing shop. The software has a user-friendly interface and can be connected to the 5-angle Spectro and to many popular scales.

5-angle Spectrophotometer

The 5-angle Spectro will find the right color match at the push of a button. This plug-and-play color tool is simple to use and easy to calibrate. Valspar's color experts conduct ongoing research and add information to the database every day. Consistent updates ensure that the latest information is always at your fingertips.

Color Chips

The Valspar Global Color Box contains the colors of popular car makes and models from around the world. With this enormous palette of color fan decks containing over 8,000 color samples, you'll be sure to find the right color. This tool (arranged by car manufacturer) enables you to visualize the different versions of original car colors. Updates are released two times a year.

Color Information Books

The Valspar Color Information Books make matching colors easier. This color tool includes two color books, one for solid colors and one for basecoat effect colors, with sprayed samples that provide a reliable picture of the finish. Find colors by color family or without a code and offer your customers a wide variety of color options.

CLEANERS

The perfect start for a durable foundation. Available in both solvent and waterborne.

National Rule

ICR-1333-4

Cleaner For Plastics

Used for removal of mold release agents and contaminants from non-primed plastic parts.

Size: Quart

ICR-0014-1

Spirit Wipe - Fast

Removes contaminants such as wax, grease and road tar prior to refinishing.

Size: 1 Gallon

Coast-to-Coast

ICR-0020-3

Waterborne Surface Cleaner

Multi-purpose cleaner for use in initial and final surface preparation.

Size: 3.75 Litre

THINNERS AND REDUCERS

Universal 2K thinners for National Rule and low VOC for a more compact system. Low VOC reactive basecoat reducer helps create a more durable finish.

Low VOC

PCR-1770

Exempt Solvent

Size: Quart

PCR-1772

Exempt Solvent - Slow

Size: Quart

PCR-1463-1, -4

Compliant Thinner - Normal

Compliant normal thinner for use in Prospray low VOC normal-solids basecoat.

Size: 1 Gallon, 1 Quart

PCR-1464-1, -4

Compliant Thinner - Slow

Compliant slow thinner for use in Prospray low VOC normal-solids basecoat.

Size: 1 Gallon, 1 Quart

National Rule

ICR-1401-4

Fade Out Thinner

Delivers seamless transitions and blends of clearcoats and single stage topcoats.

Size: Quart

ICR-1692-1

Performance Thinner Fast

A high quality fast thinner for use in a wide range of applications.

Size: 1 Gallon

ICR-1693-1, -4

Performance Thinner Medium

A high quality medium thinner for use in a wide range of applications.

Size: 1 Gallon, 1 Quart

ICR-1694-1

Performance Thinner Slow

A high quality slow thinner for use in a wide range of applications.

Size: 1 Gallon

ICR-1695-1

2K H.S. Very Slow Thinner

A high quality very slow thinner for use in a wide range of applications.

Size: 1 Gallon

PRIMERS AND SEALERS

An excellent foundation for a durable, long lasting finish.
Available for National Rule and low VOC markets.

National Rule

A-300-3

H.S. Primer - Grey

High-solids 2K urethane primer with excellent build, color holdout and superior intercoat adhesion.

Size: 3.75 Litre
Activator: ICA-799 – ICA-803
Reducer: ICR-1692 – ICR-1695
Mix Ratio: 3:1:15%

A-514-2

Etch Primer

Provides excellent adhesion and corrosion resistance.

Size: 1 Litre
Activator: A-516-2 Etch Primer Activator
Mix Ratio: 1:1

A-522-4

Plastic Bumper Primer Clear (RTS)

Provides adhesion to raw plastic. Can be directly topcoated.

Size: Quart
Mix Ratio: Ready-to-Spray

A-700-3

H.S. High Build Surfacer - Grey

High-solids, high-build grey primer that is easy-to-sand and provides excellent color holdout and durability. Can be blended with A-702 and A-703 for use in a grey shade system.

Size: 3.75 Litre
Activator: ICA-799 – ICA-803
Reducer: ICR-1692 – ICR-1695
Mix Ratio: 4:1:10-15%

Low VOC

A-510-3

2.1 VOC 2K Primer - Grey

A high-solids grey low VOC 2K primer that provides excellent build and color holdout and is easy-to-sand.

Size: 3.75 Litre
Activator: PCA-451 – PCA-453
Reducer*: PCR-1770 & PCR-1772
Mix Ratio: 4:1

Coast-to-Coast

A-536-3

2.1 VOC DTM Primer - Grey

A grey high-build, fast drying DTM primer for use over a variety of substrates.

	National Rule	Low VOC
Size:	3.75 Litre	3.75 Litre
Activator:	A-538 DTM	A-538 DTM
Reducer*:	ICR-1692 – ICR-1695	PCR-1770 & PCR-1772
Mix Ratio:	4:1	4:1

A-540-3

2K Wet on Wet Sealer - Grey

2K grey sealer for use under Prospray basecoat and single stage.

	National Rule	Low VOC
Size:	3.75 Litre	3.75 Litre
Activator:	ICA-799 – ICA-803	A-538-2 DTM
Reducer:	ICR-1692 – ICR-1695	PCR-1770 & PCR-1772
Mix Ratio:	2:1:15%	3:1:1

A-618-3

2.1 VOC Epoxy Primer - Grey

A grey epoxy that provides excellent adhesion and corrosion resistance.

	National Rule	Low VOC
Size:	3.75 Litre	3.75 Litre
Activator:	A-620-3 2.1 VOC Epoxy Primer Activator	A-620-3 2.1 VOC Epoxy Primer Activator
Mix Ratio:	1:1	1:1

A-619-3

2.1 VOC Epoxy Primer - Black

A black epoxy that provides excellent adhesion and corrosion resistance.

	National Rule	Low VOC
Size:	3.75 Litre	3.75 Litre
Activator:	A-620-3 2.1 VOC Epoxy Primer Activator	A-620-3 2.1 VOC Epoxy Primer Activator
Mix Ratio:	1:1	1:1

COLOR SYSTEM

The Prospray® Intermix System can be mixed as a basecoat or single stage with choice of high, medium and normal-solids for National Rule areas and a high-solids option for those that require low VOC. The basecoat system offers excellent coverage and superior blending characteristics and uses a 1:1 mixing ratio for National Rule and 1:2 mixing ratio for low VOC with the option to be activated for increased durability. The single stage system offers superior flow and gloss retention using one set of activators and thinners to provide you with a streamlined easy-to-use system.

CLEARCOATS

A full range of premium, easy-to-use, European technology clearcoats for exceptional performance durability and DOI. Available for National Rule and low VOC markets.

Low VOC

PSC-4700-5

2.1 VOC Glamour Clearcoat

High-solids glamour clearcoat with excellent durability, high gloss and UV resistance.

Size: 5 Litre
Activator: PCA-451 – PCA-453
Reducer*: PCR-1770 & PCR-1772
Mix Ratio: 2:1

National Rule

PSC-8500-5

4.2 VOC H.S. Urethane Glamour Clear

A high-solids, high-gloss clearcoat with fast dry times and superior appearance and productivity.

Size: 5 Litre
Activator: ICA-799 – ICA-803
Reducer*: ICR-1692 – ICR-1695
Mix Ratio: 2:1

PSC-4000-5

3:1 Rapid Clear

Fast drying, high-gloss clear ideal for use on single or multi-panel refinishing.

Size: 5 Litre
Activator: ICA-799 – ICA-803
Reducer*: Not Required
Mix Ratio: 3:1

Coast-to-Coast

PSC-4500-5

Hyper Clear

Ultra fast drying, ideal for 1-3 panels. Out-of-dust in 10 to 15 minutes and can be polished in 40 to 45 minutes.

	National Rule	Low VOC
Size:	5 Litre	5 Litre
Activator:	ICA-799 – ICA-803	PCA-451 – PCA-453
Reducer*:	ICR-1692 – ICR-1695	PCR-1770 & PCR-1772
Mix Ratio:	5:2	3:1

ADDITIVES AND AEROSOLS

Specialty additives help enhance the performance of Prospray products. Get a spray gun quality out-put and same performance with Prospray 1K aerosols.

National Rule

A-380-2

Matting Agent

Used to reduce the gloss level of Prospray single stage and clearcoats.

Size: 1 Litre

Coast-to-Coast

BC-6048-4

Basecoat Blender

Use as a wet bed, basecoat fadeout (mix with RTS basecoat) and can be used as an intercoat clear for custom paint jobs. (Refer to TDS for mixing ratio and local solvent requirements.)

Size: 1 Quart

A-513-12

1K Aerosol Self Etch Primer

Provides excellent corrosion protection and fast dry times. Can be used as a welding primer.

Size: 11.6 oz

A-525-12

1K Aerosol Plastic Adhesion Promoter

Provides excellent adhesion, high elasticity, quick dry times, and a light silver tracer for identifying coated areas.

Size: 10.6 oz

AB-1005-12

1K Aerosol Spot Blender

Delivers seamless transitions and blends of clearcoats and single stage topcoats.

Size: 10.8 oz

HARDENERS AND ACTIVATORS

Universal activators for use in National Rule and low VOC Prospray 2K products as well as product specific activators for specialty products.

National Rule

ICA-799-25

Performance Hardener Very Slow

Use with Prospray 2K clear, primer and single stage.

Size: 2.5 Litre

ICA-800-25

Performance Hardener Slow

Use with Prospray 2K clear, primer and single stage.

Size: 2.5 Litre

ICA-801-25, -4, -16

Performance Hardener Medium

Use with Prospray 2K clear, primer and single stage.

Size: 2.5 Litre, 1 Quart, 1 Pint

ICA-802-25

Performance Hardener Fast

Use with Prospray 2K clear, primer and single stage.

Size: 2.5 Litre

ICA-803-25

Performance Hardener Extra Fast

Use with Prospray 2K clear, primer and single stage.

Size: 2.5 Litre

Low VOC

PCA-453-25

2.1 VOC Activator - Slow

A slow activator for use in Prospray low VOC 2K products.

Size: 2.5 Litre

PCA-452-25

2.1 VOC Activator - Medium

A medium activator for use in Prospray low VOC 2K products.

Size: 2.5 Litre

PCA-451-25

2.1 VOC Activator - Fast

A fast activator for use in Prospray low VOC 2K products.

Size: 2.5 Litre

Specialty Activators/Hardeners

A-516-2

Etch Primer Hardener

Use with A-514-2 Chromate Free Etch Primer.

Size: 1 Litre

A-538-4

2.1 VOC DTM Activator

Use with A-536-3.

Size: 1 Quart

A-620-3

2.1 VOC Epoxy Primer Activator

Use with A-618-3 and A-619-3 2.1 VOC epoxy primers.

Size: 3.75 litre
